[illegible]

A detailed cross-sectional view of a light-emitting device 4701. The device consists of a substrate 4502 and a top layer 4503. A large arrow labeled "light emission" points upwards from the device. The substrate 4502 contains a central region 36, which is surrounded by a series of layers including 35, 33, 34, 32, 31, 30, 29, 28, 27, 26, 25, 24, 23, 22, 21, 20, 19, 18, 17, 16, 15, 14, 13, 12, 11, 10, 9, 8, 7, 6, 5, 4, 3, 2, 1. The top layer 4503 includes a central region 41, which is surrounded by a series of layers including 42, 43, 44, 45, 46, 47, 48, 49, 50, 51a, 51b, 52, 53, 54. The device is shown in a cross-sectional view, with the layers and regions labeled with reference numerals.
